

Screenshot test page

This deliberately public, script-free fixture contains no account data, cookies or tracking. Its labels make missing content easy to spot. Compare the same page with different capture methods.

TEST 1: Fixed header

A header stays at the top while scrolling

Count the dark green header in your output. Do not assume that all screenshot methods repeat or remove it.

SYNTHETIC DATA

Weekly billing summary

Date range: September 1-7

Customer

Alex Example

alex@example.test

API key (fake, never valid)

DEMO_ONLY_NOT_A_REAL_API_KEY_1234

Report status: Ready for review

Use this image to practice redaction, OCR and a useful QA handoff.

Export

1. Export is disabled in this fixture

Twelve rows inside a short panel

Document-level capture can show only the visible part of a scrolling panel. Check whether PANEL ROW 12 appears. The expansion link above changes only this synthetic fixture's CSS layout.

PANEL ROW 01: synthetic invoice 1001, ready for review.

PANEL ROW 02: synthetic invoice 1002, ready for review.

PANEL ROW 03: synthetic invoice 1003, ready for review.

PANEL ROW 04: synthetic invoice 1004, ready for review.

PANEL ROW 05: synthetic invoice 1005, ready for review.

PANEL ROW 06: synthetic invoice 1006, ready for review.

PANEL ROW 07: synthetic invoice 1007, ready for review.

PANEL ROW 08: synthetic invoice 1008, ready for review.

PANEL ROW 09: synthetic invoice 1009, ready for review.

PANEL ROW 10: synthetic invoice 1010, ready for review.

PANEL ROW 11: synthetic invoice 1011, ready for review.

PANEL ROW 12: synthetic invoice 1012, ready for review.

A separate document inside a frame

The frame is same-origin and only 200 pixels tall. [Open the full embedded document \(screenshot-embedded-document.html\)](#) to inspect all six rows directly.

Embedded document

EMBEDDED ROW 1 of 6

Scroll to load the image near the bottom

This space intentionally places the next image well below the initial viewport. Compare a fresh capture with a capture after scrolling down and waiting for the image to display.

Lazy-loaded result

LAST CONTENT MARKER: this text follows the lazy image.

END OF FIXTURE: confirm this line is present in a complete capture.
